1. The Technical Bureau at USIG, room 204 (Nikolenko and Kirykov), formerly maintained a branch office in Berlin-Karlshorst. This branch was dissolved as of 1 April 1953. Communications arriving at USIG for Nikolenko indicate that he is a representative of the Soviet Ministry for Chemical Industry (Minzhimprom).
2. Communications arrive occasionally at USIG addressed to "General Chuykov Berlin-Weissensee." They are normally referred to General Kobulov. As of 1 April 1953, Kobulov was not in Germany, but he was expected to return at an unspecified date. Kobulov is known at USIG as Deputy to General Chuykov.
3. Individual SAC factories in East Germany occasionally send communications to USIG; these letters are handled as transit mail. Such letters are examined by Pirogov, room 224 (Kobulov Group?), and then posted to some East German ministerial office, without mention of USIG (i.e. the return address remains that of the originating factory).
4. (fnu) Zafonov occupies room 202 with Utkin (Lismut) at USIG. No description of him available.
5. Mrs. (fnu) Ianchenko runs the Shipping Section (Ekspeditsiya) at USIG (there are no others in this section), in room 102. She is from 20 to 32 years of age; short; dark-blond, dainty in appearance. Her husband, (fnu) Ianchenko, is employed as a chauffeur in the USIG motor pool. He is 20 to 32 years old; short and stocky; has wavy, dark-blond hair.
6. The occupants of several rooms on the second floor of wing C-1 at USIG have been moved to the second and third floors of wing C-4. Rooms and persons involved in this move are:

133 (fnu) Kurashkina and (fnu) Ananova (Interpreter Pool)
134 The interpreter pool (several Germans)
137 Olga Petrovna Kholmetskaya of the personnel section. She is a Soviet official, tall, thin, dark, and elegant in appearance.
138 Soviet personnel section - (fnu) Kosterov
139 German typing pool

The vacated rooms are now being transformed into a billeting area for personnel of the First Department of USIG. In addition, the First Department is moving from its present offices (room 105 etc) to the north (opposite) end of the second floor (room 135 etc.) This move places the First Department directly beneath the Kobulev Group, in a similar arrangement of rooms. Access to the First Department complex will be through a guarded barrier placed across the main corridor of the second floor, in the same manner as the access to the Kobulev Group on the third floor. These two complexes are the only ones guarded by Soviet sentries at USIG.
